The Middle East's Number 1 Junior Golf Program

Welcome

Welcome to Golf DXB, home of the Middle East's number 1 junior development program. As PGA Golf professionals it is our mission to inspire your children to maximise their potential and become lifelong golfers. Through our program we endeavour to deliver the information, knowledge and opportunity to maximise your children's rate of development and also enjoyment from the game.

We pride ourselves on the fact that our program offers unparalleled opportunity for children to learn, practice and compete which helped us to be voted the Number 1 Junior Program at The Middle East Golf Awards but also makes us the best value too.

Your feedback matters to us and we are

Guaranteeing Success

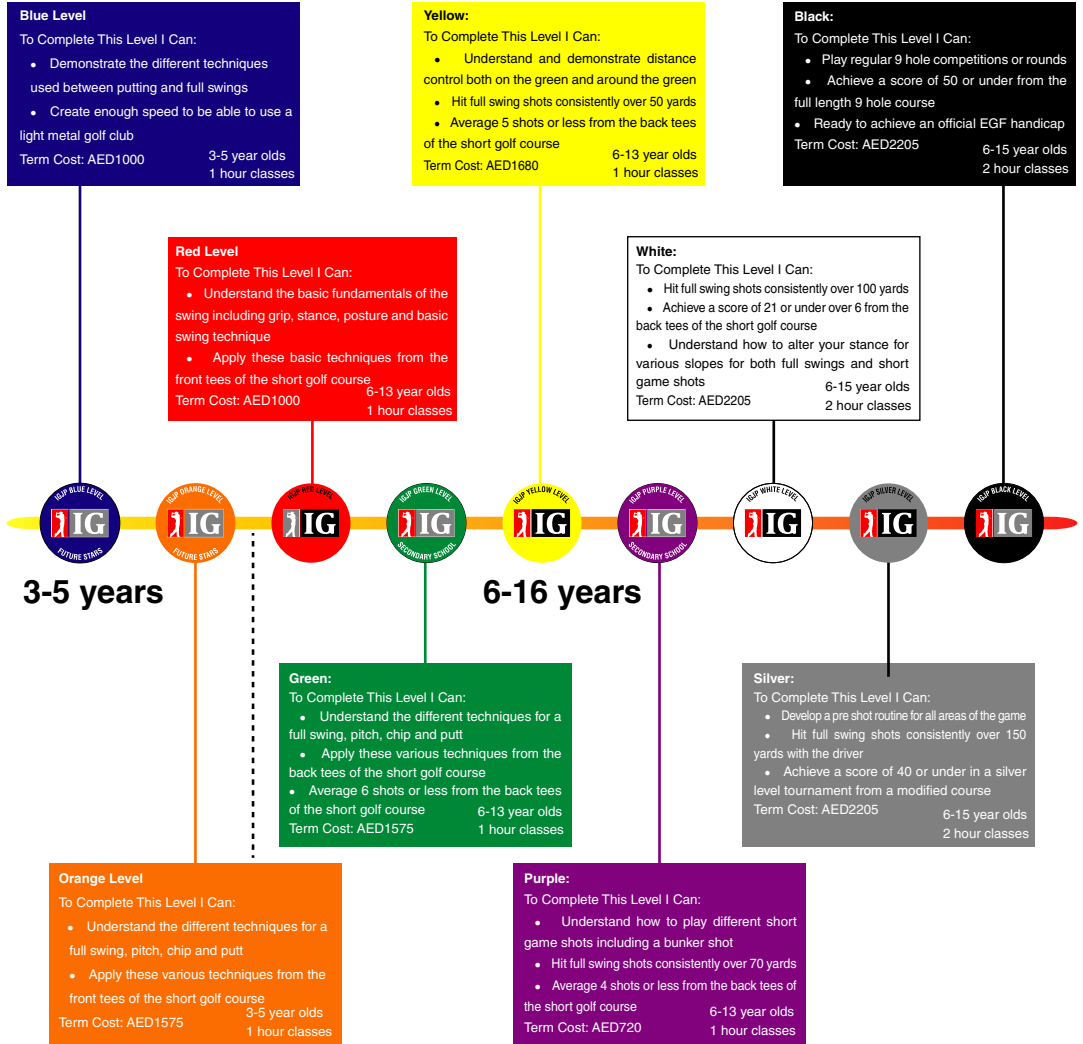

Our goal is to help your children become talented golfers. In order to ensure that your child gets the most out of the program please follow these tips that from our experience maximise improvements of our golfers:

- Be sure to join the whatsapp app group for your child's class to stay updated on key information.
- Attend all sessions to maximise your child's learning time.
- Come to at least one supervised practice session per week and if possible take part in as many of our Playing Thursdays as possible. This gives children the chance to mix with children of higher abilities and pick up more advanced techniques.
- Be sure to take your 30 minute lesson to get one on one tuition from a golf professional to accelerate your child's progress.
- Attend tournaments that are included within the term and if possible as many additional tournaments as possible
- Come to sessions early and practice on the putting green before class starts
- Take your children to one of the professional golf tournaments that happen through the year- The DP World Tour Championship is the best for families, is free entry and has the best players in the world playing!

Ability Levels

Overview

Golf DXB works on a combined age and ability level system allowing children to progress alongside children at a similar level of development to themselves. Below is an overview of our ability level system
